Accessibility statement

Fondazione Compagnia di San Paolo undertakes to make its website accessible in accordance with Law no. 4 of 9 January 2004. This accessibility declaration applies to: <https://www.compagniadisanpaolo.it/it/>

Compliance status:

Partially compliant

This website is partially compliant with the requirements set out in Appendix A of the UNI CEI EN 301549 standard due to the non-compliance issues listed below

Non-accessible content

The following content is not accessible for the reasons indicated: non-compliance with Law No. 4 of 9 January 2004

- 9.1.1.1 – Some non-text content presented to the user does not have an equivalent textual alternative serving the same purpose;
- 9.1.2.1 – In some pre-recorded audio-only or video-only media, equivalent information is not provided in an alternative format;
- 9.1.2.3 – No alternative or audio description is provided for some prerecorded multimedia;
- 9.1.3.1 – In some cases, information, structure, or relationships conveyed through page presentation cannot be programmatically determined (or are not available in text form);
- 9.1.3.2 – In some cases, where the sequence in which the content is presented influences its meaning, this is only visual and not structural.;
- 9.1.3.3 – Some instructions provided to understand and operate content rely solely on sensory characteristics of components such as shape, colour, size, visual location, orientation or sound;
- 9.1.4.3 – The visual representation of text and images containing text does not always meet the minimum contrast ratio required, except for exceptions provided by legislation (e.g., logos);
- 9.1.4.4 – Some text, except subtitles and images containing text, cannot be resized up to 200% without assistive technologies and without loss of content or functionality;
- 9.1.4.5 – In some cases, images of text have been used instead of plain text and are neither customisable nor essential to the conveyed information;
- 9.1.4.10 – Content that does not require two-dimensional presentation (such as data tables or maps) does not reflow when the user agent's display size change;

- 9.1.4.11 – For some essential components, including different states, the color contrast against adjacent elements does not exceed the ratio of 3:1;
- 9.2.1.1 – Some functionality cannot be operated using a keyboard (or similar input interface);
- 9.2.2.2 – Some moving, blinking, scrolling or auto-updating information that starts automatically, lasts more than five seconds, and is presented in parallel with other content does not have mechanisms to pause, stop or hide it;
- 9.2.4.1 – A mechanism to skip repeated blocks of content on multiple web pages is missing;
- 9.2.4.2 – Some web pages do not have titles that describe their topic or purpose;
- 9.2.4.4 – The purpose of some links cannot be determined from the link text alone or from the link text together with adjacent content;
- 9.2.4.6 – Headings and/or labels do not sufficiently clarify content or functionality;
- 9.2.4.7 – The focus indicator is not visible on some interactive elements;
- 9.3.1.1 – On some pages the language is not specified;
- 9.3.2.3 – Some of the navigational mechanisms that are repeated on multiple Web pages within a set of Web pages do not occur in the same order;;
- 9.3.2.4 – Some components with the same functionality within a set of web pages are not identified consistently;
- 9.3.3.2 – In some cases, labels or instructions are not provided when content requires user input;
- 9.4.1.2 – In some cases, user interface components (including: form elements, links and script-generated components...), names, roles, states, properties and values are not correct or set or the user and their assistive technologies are not notified when these change;
- 9.4.1.3 – In some cases, status messages are not presented to the user in such a way that assistive technologies interpret them without receiving focus;
